

## PASSPORT Altai Republic

**Altai Republic** is located in the center of Eurasia in the south of Western Siberia.

**Area** – 92903 sq km

**Population** – 211,6 (estimate 2014).

**Republican center** –Gorno-Altaysk city (population 60,828) is located 3641 km away from Moscow.

Republic is part of Siberian Federal District; it borders 4 regions of Russian Federation and 3 independent states.

### Culture

- 1 national professional drama theater of Kuchiyak
- 4 museums;
- 198 cultural-leisure institutions;
- 168 public libraries;
- state philharmonics;

- state orchestra;
- 5 objects (Altai reserve, Teletskoye lake, Katun' reserve, Belukha mountain, Ukok plateau, where the famous Altai Princess was found) are included in the World Heritage List of UNESCO;
- 93 historical and cultural monuments with federal status, more than 300 – with Republican status, 10 – with outstanding status of the Altai Republic;
- Tens of thousands of archeological and ethnographic sites, including unique and world famous archaeological sites, such as Pazaryk, Bashadar, Tuektinsk, Shibin, Karakolsk, Berelsk, Ak-Alakh, Katandin Barrows, Tsar Barrows in Altyn-Sooru valley. Ulalushka Early Man Site is famous as well;
- this region is truly rich in petroglyphs, only in the Elangash river valley there are more than eight thousand petroglyphs and in the cape of Kalbak-Tash there are about ten thousand.

### **Science**

Following institutions are located on the territory of the Altai Republic:

Gorno-Altaiisk Institute for the Humanities,

Gorno-Altaiisk Agricultural Research Institute,

Altai Regional Institute of Ecology and Environmental Management,

S.S. Surazakov Altai Research Institute

Altai Botanical Garden – affiliate of Central Siberian Botanical Garden (GABS),

Gorno-Altaiisk experimental production agricultural plant,

Cherginsk branch of Cytology and Genetics Institute of Siberian Department of Russian Academy of Sciences,

Teletsk branch of Systematics and Animal Ecology Institute of Siberian Department of Russian Academy of Sciences.

### **Education**

5 higher education establishments (Gorno-Altaiisk State University, Gorno-Altaiisk Non-Profit Education Establishment *Modern Humanities Academy*, branches of Novosibirsk Academy of Economics and Management, Novosibirsk State Technical University, Siberian Academy of State Service).

7 specialized secondary educational establishments

6 vocational technical schools

145 infant schools

186 secondary schools

2 specialized (correctional) educational establishments

13 children's creativity houses

2 ecological-biological centers

3 tourist-regional study ethnography centers

214 summer health camps

13 children-youth physical culture schools

12 art schools

### Raw-material base

In terms of natural resources potential the Altai Republic occupies 50<sup>th</sup> place in Russia.

1. Forest resources total up to 700 million cubic meters, including softwood – 600 million cubic meters, almost half of them being high-value forests, mostly cedar ones, which account for 36% of all forest resources. Mature and overmature forests total up to about 300 million cubic meters.

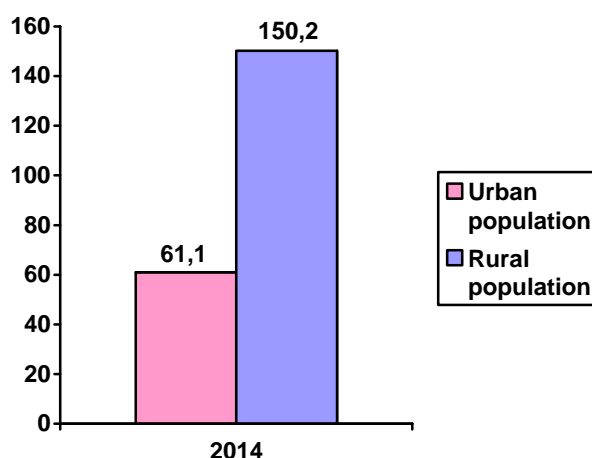

2. Area of assigned hunting grounds is 5611 thousand ha (1.7% hunting grounds of Siberian Federal District, 0.5% of hunting grounds of Russia). Agricultural lands account for about 10% of total area of lands and grounds.

3. Variety of species composition (80 mammal species, about 300 bird species, among them there are approximately 250 species of breeding birds, 11 amphibian and reptilian species, 44 fish species), 67 species of commercial animals and birds, that's why this region is considered to be one of the best hunting areas of Western Siberia.

4. Plant resources — more than 3 thousand species of higher plants, among them there are 200 species of endemic plants, which are found only in the Altai mountains. Total gross capacity of medicinal plants amounts up to more than 400 thousand tons, of which 175 thousand tons can be harvested.

5. Some of diverse mineral resources are of commercial significance — coal, iron, gold, silver, mercury, wolframite, lithium as well as building materials and ground waters. Deposits of almost all types of building materials, jewel-ornamental stones, decorative and collection stones were revealed.

### Annual average resident population (in thousand)

### Manpower resources.

Economically active population is more than 99,9 thousand (more than 47.2% of total regional population).

### **Market infrastructure**

7 commercial and 4 regional branch banks, 1 branch of Savings Bank, 19 branches of insurance companies, 2 companies providing both consultation services in the field of economy and auditing services, 2 leasing companies, Chamber of Commerce and Industry of the Altai Republic.

### **Gross regional product**

Gross regional product of the Altai Republic in 2013 was 29615,9 million (98.8% to previous year), production per capita 141,4 thousand.

### **Structure of gross regional product (according to the data for 2013)**

Agriculture and forest sector – 20.9%; construction – 12.6%, wholesale and retail trade including public catering – 5.6%, transport and communications – 4.4% and others – 48.9%.

### **Transport infrastructure**

Stretch of highways in the Altai Republic totals about 3.5 thousand km including roads of:

- Federal importance - 572 km (16.4%)
- Republican importance - 2891 km (83.6%).

### **Communications**

Utility distribution and communication system corresponds to the international standards.

### **Industrial complex**

408 enterprises;

Competitive products: wood, carving wood, cheeses, oil, meat processing products, phytoproducts (teas, balms), nonferrous industry products (gold, copper, silver, wolframite-molybdenum and wollastonite concentrates).

### **Agroindustrial complex**

More than 1.3 thousand of farming enterprises (farms).

Distant-pasture cattle rearing and plant-raising prevail in agroindustrial complex. Under development is special branch of animal husbandry, i.e. dags deer breeding, which is the source of the most important export product – dags of Siberian stags and deer.

### **External-economic activity**

Foreign trade partners are companies from 13 countries from far and near abroad. Main partners are Hong-Kong, Korea and Mongolia.

Foreign trade turnover is 18.5 mln USD: export is 15.3 mln USD; import is 3.2 mln USD.

### **International investment projects (intended to be jointly implemented):**

- company Wintercraft (Austria) and company Dianege (France)  
Construction of mountain-climatic sanatorium-resort complex Manzherokskiy. Participation of foreign companies from China and Mongolia is expected.
- Budweiser Měšťan Budvar (Czechia)  
Construction of a brewery to produce Czech beer under Budweiser Budvar trademark.
- company FAVEA Engineering S.R.O. (Czechia)  
Establishment of pharmaceutical production employing company's specialists and technologies.

### **Investor attractive sectors of economy**

Energy (hydropower engineering), transport, tourist-recreation, lumber complexes; processing industry (advanced agricultural raw material processing); building materials industry and construction.

### **Investment legislation of the Altai Republic**

Some standard acts aimed at development of investment activity were passed in the Altai Republic . Law of the Altai Republic *On Investment Activity in the Altai Republic* and governmental regulation of the Altai Republic *On Republic Target Programme Improvement of Investment Attractiveness of the Altai Republic* are considered to be the main acts.

Implementation of this programme will allow forming favorable investment environment, enhancing investment attractiveness, increasing inflow of investments to the economy of the Republic and activating investment activity of economic agents.

One of the most efficient ways to support and stimulate business activities financially is to lower interest rates for industries and the agroindustrial complex.

In order to realize this initiative the following forms of state financial support are provided for legal entities and individual entrepreneurs of the Altai Republic:

- state guarantees of the Altai Republic;
- subsidies to compensate interest rates with regard to the loans contracted in Russian credit institutions for the funds of the Republican budget.

State support is provided subject to the results of competitive selection at All-Republican level to be made by the Investment Commission of the Altai Republic.

The main normative-legal acts regulating provision of state support are as follows:

- Law of the Altai Republic *On Basic Trends and Procedure of State Financial Support for Private Commercial Organizations for Account of Funds of the Republican Budget of the Altai Republic*, governmental regulation of the Altai Republic *On Approval of the Regulation to Provide State Guarantees of the Altai Republic to Legal Entities*, *On Procedure of Subsidizing Interest Rates on Credits Contracted in Russia Credit Institutions for Account of Funds of the Republican Budget of the Altai Republic*, *On Approval of the Regulation and Composition of Investment Commission of the Altai Republic*.

A Social Investor Institute functioning in the Altai Republic is a financial tool significant for the economy of the Republic allowing to attract both direct investments and additional tax revenues to budget. The following laws form legal basis for regulation of social investor activities:

- Law of the Altai Republic *On Tax Incentives to be Granted to Social Investors in the Altai Republic*;

- Law of the Altai Republic *On Transport Tax in the Territory of the Altai Republic*;

- Law of the Altai Republic *On Tax on Organization Property in the Territory of the Altai Republic*;

and other directives of municipal administrations of the Altai Republic.

### **Investment rating of the Altai Republic**

According to the Publishing House KommersantЪ Rating Agency *Expert RA*, (according to the materials of the web-site [www.raexpert.ru](http://www.raexpert.ru)) based on statistical indicators and expert judgments for 2012-2013, the rating of the Altai Republic among all subdivisions of Russian Federation with regard to investment potential is 63.

The total indicator of investment climate of the region is assessed in 2012-2013 by cluster (group) - 8 3C2 (minor potential – high risk).

In 2008, a number of important economic changes in the Altai Republic took place. Programme of social and economic development of the Altai Republic for 2028 was developed and adopted. Altai Republic is granted the status of special economic zone of tourist-recreation type, a number of institutional changes in the sphere of financial-economic and investment infrastructure took place that resulted in positive changes and positive assessments of rating agencies.

These changes in the approaches of the Government of the Altai Republic to the social-economic development of the region will have significant influence on investment rating change of the Altai Republic in the immediate future already according to the bottom line in 2008.

The Altai Republic has a development potential. Government of the Altai Republic is interested in development of a mutually beneficial cooperation and is willing to support investors' initiatives.

In-depth information about Altai Republic, structure of the executive branch of the Government of the region, republican legislation, investment strategy, as

well as a list of enterprises and organizations of the Republic is available on the website of the Altai Republic at [www.altai-republic.ru](http://www.altai-republic.ru).

Coordination of international and interregional relations, exhibiting and tourism activities are delegated to the The Ministry of economic development and tourism of the Altai Republic.
